General info

Note sulle finiture

Information on the goods' finishing

Il vetro soffiato è la risultante di una lavorazione artigianale e non industriale e seriale. Ogni oggetto, per quanta attenzione possa mettere il maestro vetraio, sarà diverso l'uno dall'altro, sia in termini di dimensione che di forma e finitura. Questa diversità rende ogni oggetto creato dai mastri vetrai, unico ed esclusivo. Ogni imperfezione, quindi, sia essa in termini di forma, dimensione o finitura, non costituisce certo difetto, ma una caratteristica tipica del lavoro manuale.

Blown glass is the result of an artisanal process. It is a hand-made product that does not involve any industrial or mass production process. Despite the abilities of the artisan, every glass will be different from the other in terms of size, shape and finish. Every glass blown by the "Mastro vetraio" (master of glass) is unique and special. No imperfection, in terms of size, shape and finish, is a defect, but rather the distinguishing feature of a hand-made product.

1. Determine the size of the hole to be made in the plasterboard, depending on the type of formwork.

2. The formwork is supplied ready for a plasterboard thickness of 12,5mm. For other thicknesses, move the tabs.

3. Fit the formwork inside the plasterboard and position it over the hole.

4. Where the tabs are, fasten the formwork to the plasterboard using the screws provided in the pack.

5. Perfectly plaster the edges of the formwork so the ceiling finish is uniform with the inside of the formwork.

6. In the basic version, fit the light bulb directly on the formwork using the round spring provided in the pack. In other cases, connect the lamp holder with light bulb to the power supply and fasten the whole to the formwork magnets.

1. I prodotti installati devono essere sottoposti ad opportuna manutenzione e installati da personale qualificato rispettando le istruzioni di montaggio e le norme di installazione vigenti.
2. Per poter accedere alla garanzia il cliente deve aver ottemperato a tutte le condizioni contrattuali previste dal contratto di acquisto.
3. La garanzia decade nel momento in cui vengono superati i limiti di temperatura ambiente e di tensione. Il prodotto deve essere utilizzato in ambiente/applicazione idonee a seconda delle caratteristiche dichiarate da Fabbian Srl (ad esempio grado IP, watt, ecc.).
4. Per poter procedere al reso dei presunti prodotti difettosi è necessario ricevere autorizzazione scritta da parte di Fabbian Srl.
5. I presunti prodotti difettosi devono essere rispediti in Fabbian Srl integri, senza essere stati modificati o manomessi; Fabbian Srl eseguirà poi le verifiche del caso per individuare la natura e la causa del guasto.
6. La garanzia decade nel momento in cui il cliente decida, senza autorizzazione scritta di Fabbian Srl, di eseguire interventi di sostituzione/manutenzione/riparazione dei prodotti.
7. La garanzia prevede la riparazione/sostituzione e riconsegna del prodotto; qualsiasi costo aggiuntivo (costi di installazione, trasporti da rivenditore a consumatore finale e viceversa, smaltimento, rimborsi, trasferte, noleggio elevatori o ponteggi) non saranno addebitabili a Fabbian Srl.
8. La garanzia di 5 anni per i prodotti forniti con LED integrato, è valida solo se la perdita di flusso del LED fornito è superiore allo 0,6% ogni 1000 ore di funzionamento. La garanzia non copre le fonti luminose installate sul prodotto anche se fornite dalla Fabbian Srl.
9. Gli alimentatori utilizzati per collegare i prodotti devono essere forniti da Fabbian Srl e devono avere delle caratteristiche conformi ai prodotti che vengono collegati (ad esempio numero di led, tensioni).
